

COVID Safety Plan

- No pre-rehearsal or pre-show waiting in the lobby. Doors will open for rehearsals and performances 5-10 minutes prior to start times.
- Daily temperature checks will be performed on every child and adult participating in ECT rehearsals or performances. Anyone with a temperature at or above 100.4 F, will not be allowed to enter the rehearsal or performance space.
- Hand sanitizer must be used upon entering rehearsal and performance space. Hand sanitizer will also be available at all times for use.
- Face masks which thoroughly cover the nose and mouth are required at all times in rehearsal and performance spaces.
- Clear masks will be provided to children for performances.
- All adults and children must practice social distancing, staying 6-feet/two arm lengths away from others not in your household during all ECT activities unless close proximity to another person is required for brief scene work in the play or for safety reasons.
- No food will be allowed during rehearsals or performances. Personal bottled water is allowed.
- The auditorium capacity of 50 people will be strictly enforced, with seating 6 feet apart between groups attending together. Audience capacity may be subject to change per IDPH guidelines.
- Contact information (name, email, phone number) will be recorded for anyone entering rehearsal and performance space for future contact tracing if needed.
